

Station Staff

The Station Staff are our visitor's first point of contact, and they run the stations on the Strathspey Railway at Broomhill, Boat-of-Garten and Aviemore, where there is also the Administration Office, which takes all the bookings by phone and very soon by internet, and within this department is our marketing team, letting the world know we are here!

Not so physically demanding, you will require a variety of skills. As you would be customer facing, you would need good customer service skills, be able to handle cash, and input data onto the computer. Our stations also require some TLC, so we need cleaners, painters and general handy persons, gardeners the list here is endless, so if you had one or a few of their skills we could find you plenty to do!
